Morning Giggle

When I stepped on the scale at my doctor's office, I was surprised to see that I weighed 144 pounds.

“Why don't you just take off that last four?” I joked to the nurse's aide as she made a notation on my chart.

A few moments later, my doctor came in and flipped through the chart.

“I see you've lost weight,” he said. “You're down to... 14 pounds???”

CANCER (June 21 to July 22)

Today's Tip

MASTER STROKES

BY PHIL FRANKE WITH TOP 100 GOLF INSTRUCTORS

We always advise amateur golfers not to overswing in the quest for more distance. That said, now and then you'll step up to a long par 4 or a par 5 where you're driving straight downwind. This is where you can get more distance by hitting the ball high. If you "ride the wind," you'll shorten your second shot. First, tee the ball about 1/4 inch higher and 2 inches more forward than normal in your stance, so you can sweep the ball away

'Wide' The Wind!

slightly on the upswing. Next, take the club back slowly and with a full extension. The slower and wider your swing, the higher the ball will fly. Finally, in a strong tailwind, hit your 3-wood instead of a driver! It will get the ball up in the air much faster, so you get more distance.

"BALL FORWARD TEED HIGH"
